PROFESSIONAL SUMMARY

Motivated and fast-learning software engineering graduate with hands-on experience in Java, Python, and JavaScript. Proven track record of collaborative projects, including machine learning, mobile development, and software quality management. Known for analytical thinking, effective teamwork, and the ability to lead and delegate tasks when needed, and adapt to new technologies. Highly organized and detail-oriented, I always meet project deadlines and quickly adapt to new challenges, driven by a love of discovery and learning. I am looking for a role where I can leverage my technical expertise and innovative mindset, contributing to impactful software solutions within a dynamic engineering team.
